THE INSTITUTION OF ENGINEERING DESIGNERS

REPORT

FOR THE YEAR ENDED 31 DECEMBER 2025

The trustees present their report and the financial statements for the year ended 31 December 2025.

The accounts comply with the Charities Act 2011, the charity's governing document and the Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102).

Structure, governance and management

a. Constitution

The charity is controlled by its governing document, the Royal Charter, By-laws and Regulations.

The trustees who served during the year were:

S J Benfield CEng CEnv CTPD FIED(PCh) MAPM (Councillor and Honorary Treasurer)

Professor K Bond BEng(Hons) PhD CEng FIMechE FIED MIET (Councillor)

D T H Castle IEng RCADMan FIED(PCh) MBCS CITP (Immediate Past Chair)

R Yuen MEng CEng FIED MICE MAPM (Chair)

THE INSTITUTION OF ENGINEERING DESIGNERS

REPORT (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2025

b. Method of appointment or election of Trustees

The Officers of Council - Chair and Vice Chairs - are elected annually by the Council. An election to Council is held annually in which up to one third of Council are obliged to stand down. They may be re-nominated by Council. Any three Corporate Members may also nominate a qualifying Corporate Member. A postal ballot of all Corporate Members is held where the total number of nominations exceeds the number of vacancies.

The appointment of officers and election of Council is governed by By-laws 40 to 46 of the Institution's governing document. The Honorary Treasurer shall be elected to the post annually by Council.

c. Policies adopted for the induction and training of Trustees

New members of Council are inducted with the appropriate NCVO guidelines.

d. Organisational structure and decision making

Organisation and Structure

To ensure the efficient use of the elected Councillors a Board and Committee structure is in place which involves the commitment of as many of the elected Councillors as possible in the ongoing affairs of the Institution. A small permanent staff headed by the Secretary is employed by Council to deal with the day-to-day administration of the membership, Engineering Council registration matters, the publication of the Institution's journal Engineering Designer, financial matters and the administration and organisation of its course and conference activities.

Events since the end of the period

Information relating to events since the end of the period is given in the notes to the financial statements.

Staff

As the financial year closed the Institution employed five full-time and four part-time members of staff, including the Secretary. Mr David Osborne - Accounts Officer, Mrs Linda Parry – Membership Officer, Mrs Nadine Pearce - PA to the Secretary, Mrs Jo Winslow - Education and Training Officer and Mrs Denise Watson - Administrative Assistant, Miss Molly Kerr and Mr Harrison Stocker - level 3 apprentices, Ms Eleanor Fosberry, Project Courtleigh Manager, continue to give the Institution invaluable service.

The Secretary's remuneration is set at annual review by the Trustees.

Wider network

At present the Institution does not consider itself to be part of a wider network.

Engineering Council/EngineeringUK

The Institution's relationships with the Engineering Council and EngineeringUK remain the most important of all its relationships with other charities and organisations. The Institution continues to work closely with both bodies, Eurling Simon Vaitkevicius and Mr Neil Phelps represent the Group B college on the Engineering Council Board and other members of Council represented the IED as Liaison Officers and on the Engineering Council's Quality Assurance Committee (QAC).

The Design Society

The Design Society is an international body dedicated to promoting the best in design practice and education. The Institution has co-operated with the Society in the past and the two bodies again came together to collaborate during 2026 as partners in the very successful Engineering and Product Design Education Conference, hosted by University of Malta.

The Royal Academy of Engineering

The IED continues to work to the Diversity Concordat, with a view to working towards encouraging membership from a wider range of backgrounds. The Secretary also sits on the 'Professional Engineering Committee' administered by the Academy and the Academy's National Engineering Policy Centre. In addition, members of the IED contributed to reports drawn up by the Academy during the year and the Secretary concluded her role as Chair the EECG (Engineering Ethics Coordination Group), an ongoing project overseeing the implementation of the recommendations of a report into ethics in engineering.

THE INSTITUTION OF ENGINEERING DESIGNERS

REPORT (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2025

The Society for the Environment

The Institution has a licence to award Chartered Environmentalist (CEnv) and Registered Environmental Practitioner (REnvP) status to suitably qualified and experienced members. A volunteer member continues to serve on the Council and Registration Authority of the Society.

e. Risk management

The trustees have a duty to identify and review the risks to which the charity is exposed and to ensure appropriate controls are in place to provide reasonable assurance against fraud and error. Key risks include: IT breaches, loss of licences from Engineering Council and Society for the Environment, loss of key members of staff, loss of tenants at Courtleigh, lack of income from sponsors, seminars or registrations, fire or flood. These and other risks are included on a risk register, with mitigation, actions, response and responsibilities allocated accordingly.

Objectives and activities

a. Policies and objectives

Mission Statement

We work to inspire, develop and promote professionals working in engineering and product design. Setting standards and competencies for our members who advance and progress society by providing technical products and solutions.

Objects

The main objects of the Institution are to:

- Advance education in Engineering and Technological Product Design and, more particularly, the species of knowledge and application which distinguishes Engineering Design, and the profession directly concerned with Engineering Design;
- Constitute a body of members qualified to a generally recognised high standard

We review our aims, objectives and activities each year. This review looks at what we achieved and the outcomes of our work in the previous 12 months. The review looks at the success of each key activity and the benefits they have brought to those groups of people we are set up to help. We have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing our aims and objectives and in planning our future activities.

Notes:

1. The remaining supporting objects are printed in the Royal Charter of the Institution, a copy of which is available on request from the Institution's Headquarters tel: +44 (0) 1373 822801, email ied@ied.org.uk and on the website www.ied.org.uk.

b. Strategies for achieving objectives

Strategy

The Institution's Strategy Document is updated on an annual basis following review by the Council. This document provides the basis from which the objectives in the Mission Statement are developed for the furtherance of the Institution

Risk review

The Council has conducted its own review of the major risks to which the charity is exposed and systems have been established to mitigate those risks. Significant external risks to income have led to the development of a strategic plan

THE INSTITUTION OF ENGINEERING DESIGNERS

REPORT (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2025

c. Activities for achieving objectives Significant activities

The following projects were progressed:

- Project Courtleigh, an initiative aimed at utilising the asset that is the IED HQ, has moved forward with the granting of planning permission for development of part of the grounds. Work is continuing to sell the land.
- The work of the Inclusion, Equity and Diversity Committee continues, with projects rolled out across the IED with the aim of improving the diversity of membership representation across the Institution.
- 'Project IED' was rolled out – a group of initiatives aimed at a number of outcomes, including widening membership, improving communications, providing a greater range of membership services and looking at non-membership revenue. A group of Trustees are steering these various projects which will help the IED become the Institution of the future.
- The new Communications Committee has developed, with the aim of improving connections with existing and potential membership, a strategy has been developed and rolled out under the control of the apprentices.
- Employment of two apprentices in the fields of marketing and communications and operations management have already led to significant developments in marketing and communications with existing and potential members.

d. Volunteers

Other than trustees, assessors and committee members the Institution does not rely on volunteers.

Achievements and performance

a. Review of activities General Progress

Objectives

The main objective for 2025 was to continue to provide membership and registration services and support to IED members. The development of the Communications Committee and employment of the apprentices is aimed at addressing some of the challenges of attracting and retaining members.

Membership

The fluctuations in membership over the period covered by this report are as follows:

	Dec 2025	Dec 2024
Fellows	143	141
Members	1,145	1,200
Students (including OU)	2,027	1,868
Affiliates	10	11
Associate	33	61
Total	3,358	3,281

Efforts are being made to attract more Member grade professionals to replace those coming to the end of their careers. A new, more personalised, method of signing up students from accredited courses has been introduced which is proving popular, and will create a more personalised relationship with students. The new method is also more GDPR compliant.

THE INSTITUTION OF ENGINEERING DESIGNERS

REPORT (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2025

Continuing Professional Development

The 'MyCareerPath' CPD scheme run by the Engineering Council has been available to IED Members since 2013 with all new members encouraged to enrol. The competencies for MIED, CEnv, REnvP, CTPD and RProdDes have been uploaded to the system. The Engineering Council have introduced mandatory CPD monitoring for all PEIs. The IED developed a monitoring and feedback process to meet this requirement which was further refined in 2025. 10% of registrants were randomly sampled and asked to provide up-to-date CPD records for the previous 12 months, of these 10% were reviewed by the Membership Committee and feedback given to responders. This is in addition to all CTPD, RProdDes and CEnv registrants who are obliged to submit CPD records annually.

Publications

A further four issues of *Engineering Designer* were published during the period covered by the report. Once again the policy has been to publish as many articles written by members as possible covering a wide range of subjects. In addition to automatic circulation to its members the magazine remains available by subscription and is circulated free-of-charge to a number of educational establishments. The publication is available electronically to all members including those who live internationally and non-paying students. In addition to the four printed copies there were also 12 monthly digital publications, available online to members and the wider public, as well as weekly digital newsblasts.

Charitable activities

The following activities took place:

- In-person accreditation visits at universities and colleges in the UK. The purpose of these visits is to assess the standards of design courses, in terms of content, delivery, staff development, student attainment, resources, support and industry satisfaction.

The IED works with a number of other bodies to further the promotion and development of Engineering and Design:

- Four IED members volunteer for various BSi Committees advising on the development of relevant standards.
- The Secretary represents the IED on the Professional Engineering Committee, a body which encompasses the Royal Academy of Engineering, Engineering Council, EngineeringUK and all UK PEIs, providing a port-of-call for government regarding engineering policy consultation as well as being an active body promoting engineering excellence and awareness to the general public.
- The Secretary continued to Chair the EECG (Engineering Ethics Coordination Group), an ongoing project overseeing the implementation of the recommendations of a report into ethics in engineering as drawn up by the Royal Academy of Engineering and the Engineering Council.
- Volunteer members also sit on the QAC and RSC Committees at the Engineering Council, the EAB and Council and RSA of the Society for the Environment.

Other Activities

The Institution either ran or participated in the following events during the year:

- The Institution again joined forces with the Design Society in 2025 to run a joint Engineering and Product Design Conference, with the theme of Fostering Human-Centred Products and Services in Design. The conference was a two-day event hosted by University of Malta, where a total of 125 papers were presented. The event was a great success with 134 attendees.
- The IED continued working with IOM3, RCA, the Crafts Council and independent advisors on MaDE (Materials and Design Exchange), part of the materials knowledge transfer network. The group's aim is to increase and encourage communications between designers and materials scientists.
- The IED also worked with a number of colleges and universities during 2025 to accredit their educational programmes. Panels of volunteer assessors, accompanied by the IED Secretariat, carried out 8 accreditation visits during the year, with 39 courses accredited.
- The IED supported the annual Engineering Design Show, with a stand at the event held in Coventry in October.
- The IED also help co-ordinate M+E Week, which culminated in the Smart Manufacturing Expo at the NEC in June.
- The Institution also supported the 2025 'Westbury Soapbox Derby' held in the IED's home town, aimed at attracting young people into careers in STEM.

THE INSTITUTION OF ENGINEERING DESIGNERS

REPORT (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2025

- Machine Building live was held at Stoneleigh Park in October, where the IED had a stand to attract new members.

Awards and Prizes

The Institution continued to run the IED Prize aimed at accredited Degree and HNC/D graduates. 29 Individual Prizes were awarded during the year. In each case the nominated student/graduate had to show that he or she had attained outstanding results on their chosen course, with particular reference to the design related subjects within the course.

The IED collaborated with the David Peacock Trust in 2025, to distribute funds from the trust to Masters level design students. Nine grants were awarded during the year.

The Institution's annual awards were presented following the AGM at ThinkTank Birmingham Science Museum.

The Institution's most prestigious design award, the Gerald Frewer Memorial Trophy was awarded to Professor Eujin Pei for his contributions to developing and advancing additive manufacturing.

The Hornsby Cup, given for the best article published in the Institution's magazine during the previous year, was awarded to Dr Lee Styger for his article 'Cracking the Great Plastics Swindle' which appeared in the October 2024 issue.

The Chair's Award was presented to Molly Kerr in recognition of her enthusiasm and competence in her apprenticeship at the IED.

Six medals of appreciation were awarded:

- Mr Ian Batkin in grateful recognition of his support and promotion of the IED at exhibitions and events.
- Mr Max Bendall for his work on the branding for the new social media platforms and particularly his design of the IED's 80th anniversary logo.
- Dr Nigel Garland for his contributions to numerous course accreditations as a member of the accreditation panel.
- Mr Rob Marchant for his support of the IED at local events, hosting young designers at his studios and promotion of the IED at exhibitions.
- Mr Andy Moss for his support and promotion of the IED at exhibitions and events.
- Mr Harrison Stocker for his development and launch of the IED's social media platforms including the IED's podcast 'The Design Hub'.

The Promotion of Design Award is presented to an individual or team for their work in promoting engineering design to a wider audience. The Award for 2025 was presented to Dominic Chinaea and Steve Fletcher of 'The Repair Shop'.

The Geoff Kirk Young Members Award is aimed at recognising promising new members starting on a career in engineering design. The 2025 winner was Thomas Lemon.

The Kathbert Trophy, awarded to the most promising new member, was awarded to Oliver Morgan.

The Alex Moulton Award is awarded to recognise outstanding innovation. The award was not presented in 2025.

The Founders Award was presented to Richard Timbrell in recognition of his service as the first 'Project Catalyst' volunteer.

The Hills Millennium Award was awarded to Professor A Balasubramaniam from India.

Three new awards were presented for the first time in 2025:

The Sustainable Design Award was created to acknowledge innovation in sustainability, with the inaugural winners 'Design for Good'.

The Inclusive Design Award is aimed at providing and celebrating design, with the winners of the first ever award 'James Leckey Design'.

THE INSTITUTION OF ENGINEERING DESIGNERS

REPORT (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2025

The Colin Ledsome Award, founded in memory of the former Chair and great promoter of the joy of engineering and design, was presented to Rob Bennett.

Full details of the awards celebration appeared in the October issue of *Engineering Designer*.

Volunteers

The Institution continues to rely heavily on member volunteers to assist in its activities, particularly in the following areas:

- Membership Committee - in addition to the Council-appointed Chair and other Council members listed earlier in the report a number of other member volunteers give of their time to assess new membership and registration applications. Meetings are normally held on the third Wednesday in every month.
- Education and Training Committee - in addition to the Council appointed Chair and other Council members as listed there are member volunteers who gave their time to consider education and training issues effecting engineering and product design and to assess nominations for the Institution's Awards Schemes. The Committee meets six times per year.
- Inclusion, Equity and Diversity Committee – seven members of the Institution work together to address issues of equity, diversity and inclusion within the Institution and the wider design community.
- Communications Committee – formulated and implemented a new strategy for comprehensive communications across the Institution, with the aim of improving engagement with existing members, attracting new members and reaching out to the wider design community.
- Course Accreditations - the Education and Training Officer keeps a database of trained and experienced members to assist with accreditation of academic courses in engineering and product design.

The membership database contains details of those members who are trained to undertake interviews of potential and existing members or who act as mentors in respect of the following requirements:

- Professional Review interviews which are a requirement for engineer's registration at CEng, IEng and some EngTech level
- Technical Report and ELR interviews at all three levels
- Chartered Environmentalist interviews
- CTPD, RProdDes, RCP and RCADMan interviews

There are 16 volunteers on the Membership Committee and 19 volunteers on the Education and Training Committee.

b. Investment policy and performance

The trustees are currently satisfied with the investment performance of the assets and at present do not have any plans to expand its portfolio or feel it necessary to dispose of those currently in use.

c. Factors relevant to achieve objectives

The trustees have made a full assessment of the internal and external factors that may affect these financial statements and do not deem any factors material enough to have an impact.

Financial review

a. The Statement of Financial Activities (page 11) shows that for this year there was a deficit of £(115,671) (2024: deficit £(40,285)).

Total resources expended amounted to £425,104 (2024: £337,246).

b. Reserves (restricted and unrestricted)

Total reserves amount to £514,916 (2024: £505,587). General reserves (excluding restricted and endowment funds) stand at £491,102 (2024: £489,773).

It is the IED's policy that unrestricted funds not presently committed or invested in tangible fixed assets should not be designated for specific future expenditure.

THE INSTITUTION OF ENGINEERING DESIGNERS

REPORT (CONTINUED)

FOR THE YEAR ENDED 31 DECEMBER 2025

Restricted reserves stand at £23,814 (2024: £15,814).

Unrestricted reserves stand at £164,821 (2024 £287,952) of which £500,731 (2024 £503,284), excluding the revaluation reserve (see below), are held as fixed assets with the balance represented by net liabilities of £(333,898) (2024: £(168,687)).

As can be seen from the above, free reserves (unrestricted reserves not tied up in fixed assets) are currently in deficit. The Trustees have a three-tiered plan to address this situation, with management of expenditure to help minimise the immediate gap, intermediate plans to realise some of the assets that are within Courtleigh and longer-term plans to raise capital for the development of the Institution in the not too distant future.

The financial statements have been prepared on a going concern basis. The timing of receipts of subscription income means that working capital requirements can fluctuate significantly during the year. The Institution has access to both short term (overdraft) and medium-term funding (loans) to address this. It also has longer term (realisation of asset) plans in place.

c. Revaluation reserve

The revaluation reserve represents an unrealised gain on the revaluation of the freehold land and buildings. The reserve is £201,821 (2024 £nil). The freehold land and buildings of £825,000 comprises £535,921 cost and £164,079 revaluation of cost.

Total fixed assets of £702,552 (2024: £503,294) comprises £500,731 of assets at cost net of depreciation (see above) (2024: £503,284) and £201,821 (2024: £nil) unrealised revaluation surplus.

d. Principal funding

The Institution's principal source of funding is its subscriptions from its members.

Plans for the future

Future developments

The staff, Trustees and wider volunteers at the Institution are working hard on a number of initiatives to improve the services to the membership, to promote professional registration, attract new members and improve communications, as listed in this document previously. The expected fruition of Project Courtleigh will help towards funding these activities and volunteers are actively being recruited to help with the development and delivery of the projects.

Gift Aid

The Institution approached members asking them whether they would be prepared to sign a gift aid declaration so that income tax relief could be claimed on their subscriptions, Benevolent Fund contributions and Education Fund contributions

On behalf of the board of trustees

.....
Mrs E K Meyrick BSc (Hons) FRSA
Secretary

Dated:

THE INSTITUTION OF ENGINEERING DESIGNERS

STATEMENT OF RESPONSIBILITIES

The trustees are responsible for preparing the Report and the accounts in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The law applicable to charities in England and Wales requires the trustees to prepare accounts for each financial year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources of the charity for that year.

In preparing these accounts, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP (FRS 102);
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the accounts; and
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the charity will continue in operation.

The trustees are responsible for keeping sufficient accounting records that disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the accounts comply with the Charities Act 2011, the Charity (Accounts and Reports) Regulations 2008 and the provisions of the trust deed. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

THE INSTITUTION OF ENGINEERING DESIGNERS

INDEPENDENT EXAMINER'S REPORT

TO THE TRUSTEES OF THE INSTITUTION OF ENGINEERING DESIGNERS

I report on the accounts of the charity for the year ended 31 December 2025, which are set out on pages 11 to 24.

Respective responsibilities of trustees and examiner

The charity's trustees are responsible for the preparation of the accounts. The charity's trustees consider that an audit is not required for this year under section 144(2) of the Charities Act 2011 (the 2011 Act) and that an independent examination is needed. The charity's gross income exceeded £250,000 and I am qualified to undertake the examination being a qualified member of the ICAEW.

It is my responsibility to:

- i. examine the accounts under section 145 of the 2011 Act;
- ii. (ii) to follow the procedures laid down in the general Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act; and
- iii. (iii) to state whether particular matters have come to my attention.

Basis of independent examiner's report

My examination was carried out in accordance with the general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts, and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent examiner's statement

In connection with my examination, no matter has come to my attention:

- a. which gives me reasonable cause to believe that in any material respect the requirements:
 - i. to keep accounting records in accordance with section 130 of the 2011 Act; and
 - ii. to prepare accounts which accord with the accounting records and comply with the accounting requirements of the 2011 Act;
 - iii. have not been met; or
- b. to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.

THE INSTITUTION OF ENGINEERING DESIGNERS

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 31 DECEMBER 2025

1 Accounting policies

1.1 Basis of preparation

The Institution of Engineering Designers is a registered charity in England / Wales established under Royal Charter. The address of the registered office is given in the charity information at the start of these financial statements. The nature of the charity's operations and principal activities are set out in the Trustees Report.

The charity constitutes a public benefit entity as defined by FRS 102. The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102 1A) issued on 16 July 2014 (as updated through Update Bulletin 1 published on 2 February 2016), the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102), the Charities Act 2011 and UK Generally Accepted Practice as it applies from 1 January 2015.

The financial statements are prepared on a going concern basis under the historical cost convention, modified to include certain items at fair value. The financial statements are presented in sterling which is the functional currency of the charity and rounded to the nearest £.

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented unless otherwise stated.

The financial statements have been prepared on a going concern basis. The timing of receipts of subscription income means that working capital requirements can fluctuate significantly during the year. The Institute has access to both short term (overdraft) and medium term funding (loans) to address this. It also has longer term (realisation of asset) plans in place. Accordingly the financial statements have been prepared on the going concern basis.

1.2 Incoming resources

Subscription income from members is accounted for in the period to which it relates. The institution also receives advertising income in respect of its journal and rental income in respect of its freehold property. These are accounted for on a receivable basis.

All incoming resources are included in the Statement of Financial Activities when the charity has entitlement to the funds, certainty of receipt and the amount can be measured with sufficient reliability.

Other income is recognised in the period in which it is receivable and to the extent the goods have been provided or on completion of the service.

1.3 Resources expended

Expenditure is accounted for on an accruals basis and has been included under expense categories that aggregate all costs for allocation to activities. Where costs cannot be directly attributed to particular activities they have been allocated on a basis consistent with the use of the resource.

Grants payable are charged in the year when the offer is made except in those cases where the offer is conditional, such grants being recognised as expenditure when the conditions attaching are fulfilled. Grants offered subject to conditions which have not been met at the year end are noted as a commitment, but not accrued as expenditure.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets, other than freehold land and buildings, are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Freehold land is not depreciated

Freehold buildings

Plant and machinery

nil

at varying rates on cost

THE INSTITUTION OF ENGINEERING DESIGNERS

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 31 DECEMBER 2025

1.5 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.6 Stock

Stock is valued at the lower of cost and selling price less net realisable value.

1.7 Pensions

The charity operates a defined contributions pension scheme. Contributions are charged in the accounts as they become payable in accordance with the rules of the scheme.

1.8 Funds

General funds are unrestricted funds which are available for use at the discretion of the Trustees in furtherance of the general objectives of the charity and which have not been designated for other purposes.

Restricted funds are funds which are to be used in accordance with specific restrictions imposed by donors or which have been raised by the charity for particular purposes.

1.9 Debtors

Trade and other debtors are recognised at the settlement amounts due. Prepayments are valued at the amounts prepaid.

2.0 Creditors

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount.

Wages & salaries	197,392	164,579
Total	354,522	267,314

12 Trustees

Except in relation to the appointment of a consultant for Project Courtleigh which incorporated a full due diligence process, none of the trustees (or any persons connected with them) received any remuneration during the year, but were reimbursed a total of £1,973 for expenses (2024: £1,851). This included £234 (2024: £18) in relation to accreditation expenditure £1,578 (2024: £0) for meetings and the remainder £161 (2024: £1,833) was for other expenditure.

Members loaned a further £135,000 (2024: £30,000) to the charity during the year as short-term working capital. Loan interest at 9.00% (2024: 5.00%) per month was payable on the loans. The loans outstanding at the year end were £165,000 (2024: £60,000). No other related party transactions took place during the year.
